

Model.Unit

```
classDiagram
    class ModelUnit["Model.Unit"]
    class ModelArcher["Model.Archer"]
    class ModelMage["Model.Mage"]
    class ModelWarrior["Model.Warrior"]
    ModelArcher --|> ModelUnit
    ModelMage --|> ModelUnit
    ModelWarrior --|> ModelUnit
```

The diagram illustrates a class hierarchy. At the top is the base class **Model.Unit**. Below it are three subclasses: **Model.Archer**, **Model.Mage**, and **Model.Warrior**. A horizontal line connects the three subclasses, with vertical lines extending upwards from each to a central point. From this central point, a vertical arrow points up to the **Model.Unit** box, indicating that all three subclasses inherit from the base class.
